

# TRI-MAX SUPER-SKID

K.C.A.F. FIRE TECHNOLOGIES STORAGE SYSTEM

The Tri-Max Super-SKID Storage System is a unique slide-in skid unit designed specifically to fit with the Tri-Max series of Super Skid CAF systems. The Super-SKID Storage System is built to fit on your new or used light to medium duty truck and provides easy-to-access storage compartments with that augment the tremendous capabilities of the Tri-Max CAF systems. Built of impact resistant, lightweight copolymer material, the Super-SKID Storage System provides maximum storage in the limited space available on today's light to medium weight trucks. Storage space consists of four side mounted boxes and two lower, optional 48-inch long trays mounted on 500-pound locking guides.
